## 25X1A14a TAPES

1. Each tape, or set of tapes, for a single presentation of recorded lectures in No. 41 is self-sufficient, as labelled. Except for two panel presentations, it will, therefore, not be necessary to discover the beginning of a separate talk in the midst of a tape, as before.

2. Not all lectures of No. 41 were taped; for instance, s discussion period; and, thumb-nail sketches of activities. The 25X1A14a latter are to be transcribed, as they will be more efficiently used in that form.

- 3. Charge-out sheets are in the file for anyone who borrows a tape. (e.g. Mr. have borrowed theirs.)
  - 4. An index will be provided at the end of the exercise.
- 5. To be grouped with the tapes are folders of those lectures previously transcribed. These should be treated in the same way as the tapes.
  - 6. Old tapes have already been discarded if:
    - a. mislabelled
    - b. not labelled
    - c. inaudible
    - d. marked "Do Not Transcribe"
    - e. repeated recently
    - f. found in any way not useful.

A few of the old tapes of lectures not on the No. 41 program are being retained; e.g., lecture, and one or two others.
